

Defects Report

(Customer Login (Sign In))

Defect ID: DEF-001

Module: Authentication

Feature: Login Security

Related Test Case: TC_022

Summary:

Application allows unlimited failed login attempts without any account lockout or rate limiting.

Environment:

- Application: PrestaShop Demo Front Office ([Link](#))
- Browser: Chrome
- OS: Windows 11

Severity: Major

Priority: High

Preconditions:

- A valid customer account exists.

Steps to Reproduce:

1. Open the Sign In page.
2. Enter a valid email address.
3. Enter an incorrect password.
4. Click **Sign In**.
5. Repeat the process 5–7 times.

Expected Result:

The application should enforce its security policy (temporary account lock, CAPTCHA, or rate limiting).

Actual Result:

The application allows unlimited failed login attempts without any restriction.
